

Study trip to London 2018

We started our trip at 10 pm in Hettstedt. In the next morning we took the ferry from Calais to Dover. Before we got to know our host families in London, we drove to the south of England, Brighton, the city on the English channel. At first we visited the Royal Pavilion which had been built by the Prince of Wales. During an audio tour we got an insight into the walls of the most exotic palace in Europe. After the 1,5 hour tour we still had free time to visit the Brighton Pier and lots of stores along the streets.

In the evening, we finally drove to London to our host families...

Brighton, George Street

BRIGHTON/CALAIS

Our Group in front of the Tower Bridge

... We all enjoyed the time with our host families very much. In our host family lived a woman, a man and their two children, besides three cats. Our dinner was served in typical Italian style, homemade pasta and pizza. But the dessert was American. At breakfast we had to choose between cornflakes, toast or croissants. The friendly way of the family made us feel at home.

On Wednesday morning we had a guided tour in our bus through the capital of Great Britain. We saw many interesting sights, for example: the Buckingham Palace, London Eye, St. Paul's Cathedral and Tower Bridge.

LONDON

Madame Tussauds, Marilyn Monroe

In the afternoon some of us went shopping to Oxford Street while the others were at Madame Tussauds. The wax works is subdivided in 12 parts where you can take a photo of yourself and your favorite stars. The highlight was a roller coaster that shows you the history of London. There you can see Shakespeare, Sherlock Holmes, Michael Jackson, Louis Hamilton, Darth Vader or the studio of The Voice.

After that we had the chance to go to Oxford Street, too. At 19.00 o'clock we were then again with our host family.

On the last day our bus driver drove us to Greenwich Park. From there we went to the River Thames passed the timeline and the Cutty Sark. Then we had a boat tour which finished behind the Tower Bridge. There our freetime had begun. After 3 hours some of us went into the London Dungeon and we also took a breathtaking trip on the London Eye. Finally we had free time at the Trafalgar Square again before our bus came at 9 pm.

So finished our exciting, but short journey.
